One-Page Reflective Summary

Name: Atif Ali Shah | Reg No: FA23-BAI-004 | Program: BS Artificial Intelligence
University: COMSATS University Islamabad, Wah Campus | Organization: Pakistan Ordnance Factories (POF) Wah Cantt, IT Department (CO-4)

Personal evaluation of the overall internship experience

The internship was highly valuable. I moved from theory to hands-on work with Oracle installation, database design and administration. Troubleshooting real errors built my confidence and problem-solving ability, and the data center visit showed how production systems are run.

Relevance to academic and career goals

As a BS Artificial Intelligence student, I learned that reliable data management is the base of every AI system. Skills in SQL, database design, backup and security directly support my future work in data science and AI.

Suggestions for improving the experience

More time on live production databases and performance tuning, plus assigned mentoring sessions for interns.
