Progress against design proposal

Progress is on track. The virtualized Oracle Linux environment and Oracle Database 12c installation are completed, and client connectivity through Toad has been established.

Work completed to date

Studied DBA fundamentals, installed VMware and Oracle Linux, configured YUM repository, installed Oracle Database 12c, and connected using Toad for Oracle.

Plan for the coming weeks

Design and implement the boutique database project, then practice database links, RMAN backup/recovery, security and monitoring, visit the data center, and prepare the final report.
